SYMPHONY SERIES®

Elegant and eco-friendly, our fine-quality engineered bamboo offers an innovative and broad scope to deliver an array of creative solutions for your projects.

Our Symphony Series® provides a range of cladding and acoustic options perfect for feature walls, ceilings, shading and soffits and is available in various designs, lengths and widths.

Creating a premium level of sophistication the Symphony Series® is popular with both indoor and outdoor applications due to their lightweight, versatility and seamless installation. The series comes in three styles with their own unique attributes:

- Cello Series - Ribbed/Slatted Look Cladding
- Concerto Series - Scalloped/Flat Cladding
- Opera Series - Acoustic Panels

Our engineered bamboo holds Global GreenTag Level A and Platinum Health Ratings, guaranteeing sustainable manufacturing practices and non-toxicity.

A BAMBOO LEGACY

At House of Bamboo®, we are carrying on a legacy that was founded last century, when Mark Snyders first began to source environmentally conscious bamboo. Recognised globally as a leading bamboo specialist, we are committed to creating beautiful, environmentally friendly bamboo products and encouraging Australians to embrace the benefits of bamboo.

A SUSTAINABLE FUTURE

In addition to being House of Bamboo® CEO, Jennifer Snyders also pursues her passion for sustainability by advocating bamboo projects throughout Australia and supporting land regeneration and reforestation.

Having qualified at UNSW with a Bachelor of Science (Architecture), she understands the incredible potential of bamboo and her sense of design and technical understanding has allowed her to develop a range of engineered bamboo products that can out perform timber.
