

INDECKRITY® DECKING

CONTEMPORARY/ENGINEERED

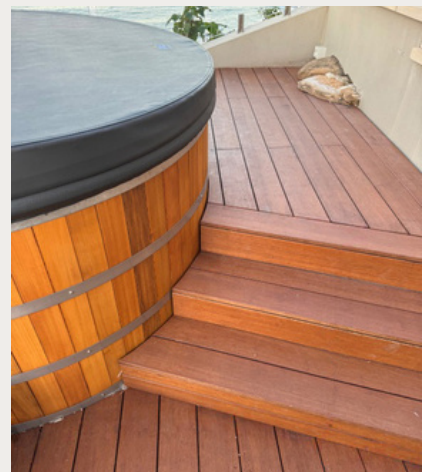

DISCOVER THE FUTURE WITH INDECKRITY®

Redefining the way you think about outdoor living, our Indeckrity® solution is crafted from natural bamboo, offering a hard-wearing, low-maintenance application.

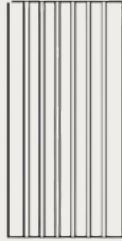

Specially heat-treated to deliver a durability far exceeding traditional, tropical hardwoods and boasting a Janka hardness rating twice that of Merbau, these bamboo decking boards come pre-oiled with WOCA ready for installation. With a 25-year warranty and guaranteed against rot, decay and termites, Indeckrity® is plastic-free, eco-friendly and FDC Certified, ensuring every purchase supports responsible forest management.

Offering the perfect blend of beauty and sustainability our decking is produced without plastics or toxins, meaning they remain cool underfoot on hot summer days. Available in two colours Truffle (dark chocolate) and Sienna (brown), installation is seamless with a unique stainless steel, clip-in system delivering a smooth and modern finish.

A BAMBOO LEGACY

At House of Bamboo®, we are carrying on a legacy that was founded last century, when Mark Snyders first began to source environmentally conscious bamboo. Recognised globally as a leading bamboo specialist, we are committed to creating beautiful, environmentally friendly bamboo products and encouraging Australians to embrace the benefits of bamboo.

A SUSTAINABLE FUTURE

In addition to being House of Bamboo® CEO, Jennifer Snyders also pursues her passion for sustainability by advocating bamboo projects throughout Australia and supporting land regeneration and reforestation.

Having qualified at UNSW with a Bachelor of Science (Architecture), she understands the incredible potential of bamboo and her sense of design and technical understanding has allowed her to develop a range of engineered bamboo products that can out perform timber.
