

FLOORING

CONTEMPORARY/ENGINEERED

FLOORING

Elevate your indoor living space with durable and sustainable Bamboo flooring. Delivering a premium styling option, our Bamboo flooring is longer-wearing than alternative flooring solutions, making it ideal for high-traffic areas in busy family homes.

Suited to any room in your home, including stairs, Bamboo flooring is easy and ready to install over existing surfaces including concrete, tiles and timber, without the need for any toxic glues, nails, sanding or fumes.

Bamboo flooring promises a long life and is naturally resistant to UV fading, fire, termites and chemical staining. Featuring a patented locking system and a 25-year limited residential finish and wear warranty, it is available in six colours and will transform your home with its luxurious look, feel and finish.

A BAMBOO LEGACY

At House of Bamboo®, we are carrying on a legacy that was founded last century, when Mark Snyders first began to source environmentally conscious bamboo. Recognised globally as a leading bamboo specialist, we are committed to creating beautiful, environmentally friendly bamboo products and encouraging Australians to embrace the benefits of bamboo.

A SUSTAINABLE FUTURE

In addition to being House of Bamboo® CEO, Jennifer Snyders also pursues her passion for sustainability by advocating bamboo projects throughout Australia and supporting land regeneration and reforestation.

Having qualified at UNSW with a Bachelor of Science (Architecture), she understands the incredible potential of bamboo and her sense of design and technical understanding has allowed her to develop a range of engineered bamboo products that can out perform timber.
