Note: Due to the natural characteristics of the product, colour and tone may vary between poles. Drawings are indicative only and not to scale.

NATUREED®

Hand-crafted from superior quality, our very own Natureed® is perfect for fencing, screening and shading solutions. Hand woven with fine-quality stainless steel wires it ensures its durability and elegant look is maintained in harsh environments.

Exclusively available to the House of Bamboo, Natureed® features twice the number of reeds per metre than other alternatives delivering a versatility that means it is also ideal for lightweight shading on its own.

NATUREED®

Single Reed

Double Reed

Difference between Single Reed and Double Reed:
Single Reed means one single reed was used for the whole height of the screen.
Double Reed means two reeds had to be joined to make the full height of the screen.

Colour	Height	Width	Thickness	SKU
Natural Single Reed	1220mm	3660mm	3-5mm	REED-SCRE-NATUREED-S-W3660-H1220-R
	1530mm	3660mm	3-5mm	REED-SCRE-NATUREED-S-W3660-H1530-R
	1830mm	3660mm	3-5mm	REED-SCRE-NATUREED-S-W3660-H1830-R
Natural Double Reed	1830mm	3360mm	3-5mm	REED-SCRE-NATUREED-D-W3360-H1830-R
	2440mm	2440mm	3-5mm	REED-SCRE-NATUREED-D-W2440-H2440-R
	2000mm	3360mm	3-5mm	REED-SCRE-NATUREED-D-W3360-H2000-R
Canopy	1830mm	3360mm	3-5mm	REED-SCRE-NATUREED-D-W3360-H1830-C-R

Note: Due to the natural characteristics of the product, colour and tone may vary between poles. Drawings are indicative only and not to scale.

PALM FIBRE

A contemporary alternative to traditional thatching, Palm Fibre provides a beautiful textural feature to interior areas. It is an effective acoustic material that can reduce reverberation, dampen noises and absorb muffling sounds.

As a natural product, each roll of Palm Fibre is unique in colour and texture. It is crafted from the highest quality palm leaves and rolled into thick shafts bound together with recycled nylon. Sustainably sourced from South East Asia our Palm Fibre has a Global GreenTag Platinum rating and Global GreenTag Level C rating.

PALM FIBRE

Colour	Height	Width	Thickness	Sku
Raw	1800mm	2400mm	30mm	PALM-LEAF-BOUND-W2400-H1800-R

Note: Due to the natural characteristics of the product, colour and tone may vary between poles. Drawings are indicative only and not to scale.

A BAMBOO LEGACY

At House of Bamboo®, we are carrying on a legacy that was founded last century, when Mark Snyders first began to source environmentally conscious bamboo. Recognised globally as a leading bamboo specialist, we are committed to creating beautiful, environmentally friendly bamboo products and encouraging Australians to embrace the benefits of bamboo.

A SUSTAINABLE FUTURE

In addition to being House of Bamboo® CEO, Jennifer Snyders also pursues her passion for sustainability by advocating bamboo projects throughout Australia and supporting land regeneration and reforestation.

Having qualified at UNSW with a Bachelor of Science (Architecture), she understands the incredible potential of bamboo and her sense of design and technical understanding has allowed her to develop a range of engineered bamboo products that can out perform timber.
